June 2014

"Brothers, Sisters and Guests,

On behalf of Local 1946, I would like to welcome you to the 28th Annual Apprenticeship Contest. For the last 28 years, members from across the province have come together to take part in the provincial contest to compete in trade contests that include carpentry, drywall and flooring.

Local 1946 is proud to host the 2014 Provincial Contest in our new Training facility. Our new building highlights the

commitment and investment the United Brotherhood of Carpenters has made to training and member skill development, both on and off the tools. The building in London is a symbolic statement of the strength and growth of the Carpenters' Union, both within London and across Ontario. The Provincial Contest is a time for members from across Ontario to come together to celebrate the role the Carpenters' Union has played in building skylines, industries and communities across our great province.

The strength and longevity of our Union goes back to the Brotherhoods founding in 1881, that included the creation of the Carpenters' motto 'Labour Conquers all Things'. As we have proven for more than 133 years and counting, the Brotherhood is a Union that continues to stand strong and produce the highest quality trades people not only in Ontario, but across Canada and beyond.

Congratulations to those who are competing in this Provincial Contest. Please take advantage of this exciting opportunity and don't forget to enjoy your time here. I look forward to the craftsmanship and skill that will be displayed in the coming days. Best of luck to everyone competing!

#### **28th Annual Apprenticeship Contest**

Dear Friends.

As Mayor, and on behalf of Londoners, I am very pleased to welcome the United Brotherhood of Carpenters and Joiners of America to our city. Your host, Local 1946, is to be commended for the hours of organization and planning they have put into making this event a success. I am confident you will be very impressed with the new training facility.

Competitors in the 28th Annual Apprenticeship Contest will be showcasing their skills in this excellent facility. Good luck to you all.

Skilled trades are the backbone of our construction industry in the commercial, residential and industrial sectors. This is where talent, experience and perseverance make all the difference and where pride in workmanship is very evident. The competition will be exciting and apprentices will be putting all they have learned on display. This is a friendly, but serious, competition and the winners will move on to the National level.

I trust you will find London to be very welcoming and I hope you have time to see some of the sights. Whether uptown or downtown, our restaurant scene is extensive and I guarantee there is a menu suited to every taste.

London is home to many fine musicians and you can see "live" music at multiple venues. Or, if you need a break from the competition, you may find a walk along the historic Thames River is the best diversion. We have an exceptional reputation for providing pristine green spaces especially set up to please visitors and residents. Parks abound and in June the weather is perfect for soaking up the sun.

Thank you for being our guests and remember we would love to see you again.

Sincerely.

Honourable Joe Fontana

#### 2014 Ontario Provincial Apprenticeship Contest - London, Ontario

Congratulations to the organizers and the contestants attending the 28th Annual Ontario Provincial Apprenticeship Contest. This event showcases the commitment to excellence and training that the United Brotherhood of Carpenters has in Ontario.

This commitment will be on display as our apprentices demonstrate skills in carpentry, drywall and flooring. These skills and the pride that our apprentices show represent the future of the United Brotherhood. This Contest also provides tangible proof of the high level to training that our UBC facilities offer throughout Ontario. The focus that the UBC has placed on training is second to none in the industry as we prepare for the future by training the next generation of members to be the safest and most productive Carpenters, Interior Systems Mechanics and Floor-layers in the business.

These contestants represent 15 UBC Locals from Ontario which have come to London to compete in a spirit of friendship and pride. I encourage all of the contestants to equally apply your skills to growing your Union. The United Brotherhood looks forward to working with you as you continue to upgrade your skills and become more involved in your Local.

I also wish to acknowledge the many educators that have trained these contestants. Your patience and encouraging words along the way is paying off! Congratulation on a job well done.

Finally, I want to congratulate Local 1946 and the Host Committee on organizing this year's Contest. The time, effort and planning has not gone unnoticed and it is because of your hard work on behalf of the United Brotherhood and your apprentices that this event will be a great success. Thank you.

June 2014

Brothers and Sisters,

Welcome to the 28th Annual Provincial Apprenticeship Contest being hosted this year in London. For all of the members competing this year, congratulations on being selected to represent your Local and trade during the contest. Each year, apprentice members come together from across the province to display their skills and talent and compete to secure a spot at the National Apprenticeship Contest, which is being hosted in Toronto in August of this year.

Training is one of the core areas within the Carpenters' Union that allows the Union to stand out from the rest of the workforce involved in construction. Without training and schooling, members would not be able to gain and master the skills necessary to meet the high demands and expectations that projects and contractors around the province expect from the Carpenters' Union. With the changing environment we work in and the role that technology and green building infrastructure continues to increasingly play, no longer can journeypersons ignore training and upgrading when it comes to their individual craft and experience. Without training, journeypersons are falling behind and limiting their opportunity for professional growth and development. To each competitor, thank you for making training a priority during your apprenticeship and realizing the role training plays in making you the most skilled tradesperson you can be.

Over the next 3 days, your skills and abilities will be put to the test. Rest assured though regardless of where you place during the competition, you have already proven to yourselves, your families and your Union, that you are some of the best apprentices that the province of Ontario has to offer. Best of luck to each of you during the contest and enjoy the next few days, as you will remember them for years to come.
